

AJGP reviewers 2020

Australian Journal of General Practice (AJGP) uses a double-blind peer review process. Reviewers provide critical commentary on the scientific quality of material submitted for publication and its interest and relevance to general practice. This task is undertaken without reward by a large number of people in order to enhance the quality and scientific credibility of published articles. Without the participation of these reviewers,

AJGP would not be able to provide high quality material to its readership. AJGP would like to thank all of our 2020 reviewers for their generous contribution to the journal. The AJGP team has made a donation on their behalf to The Smith Family, a national independent children's charity helping disadvantaged Australians to get the most out of their education, so they can create better futures for themselves.
