

## Appendix 1. Semi-structured interview schedule

### For Supervisors and Registrars [precised version]

1. To what extent has the trial of the video camera met your expectations?
2. What are the benefits of the video cameras for supervision?
3. What are the disadvantages of the video cameras for supervision?
4. How helpful or unhelpful were the video cameras in your supervisory sessions or extended clinical teaching visits? Please give reasons for each response.
5. How did you find the overall experience (eg the user interface, picture quality, audio quality etc.)?
6. Any other comments?

### For patients [precised version]

1. What was your initial response to receiving news that video cameras would be used as part of your consultation?
2. What was your level of comfort about video cameras being used during your medical consultation?
3. How did you find the overall experience? For example, the user interface, picture quality, audio quality etc.?
4. Any other comments?
