

AJGP reviewers 2022

Australian Journal of General Practice uses a double-blind peer review process. Reviewers provide critical commentary on the scientific quality of material submitted for publication and its interest and relevance to general practice. This task is undertaken without reward by a large number of people in order to enhance the quality and scientific

credibility of published articles. Without the participation of these reviewers, *AJGP* would not be able to provide high-quality material to its readership. *AJGP* would like to thank all of our 2022 reviewers for their generous contribution to the journal. The *AJGP* team has made a donation on their behalf to Careflight.
